Standard Recommended models of chinrest/camera-support (Premium & Economy)

Chinrests

Premium Professional Chinrest – Tabletop Base

CRCS-FH4

\$1200

Best Deluxe Chinrest Option

Great Value! **Best Economy Chinrest Option**

The Economy camera positioner and focus track with quick-release camera mount:

The U-Frame chinrest has an adjustable chincup (2-inch range):

The U-Frame is about 8"x9" (WxH); the chincup has about a 2" range of adjustment. The forehead rest will be about 1.5" above the eye.

Multi-Mount U-Frame Deluxe Chinrest – Tabletop Base

CRCs-UF-FH4-TTB

\$900

The deluxe U-Frame chinrest/camera-support has a more precise positioner and focus mechanism.

All U-Frame chinrest/camera-supports can alternatively work with a heavy-duty floor standing tripod:

Multi-Mount U-Frame Deluxe Chinrest – Floor-Standing

CRC5-UF-FH4-FST

\$1000

Multi-Mount U-Frame Economy Chinrest – Floor-Standing

CRC5-UF-SP-N100-FST

\$600

This shows the Economy camera positioner and focus track.

Chinrest Only Options

Premium Professional Chinrest Only – Table-Clamp

CR-TTC-2

\$400

This chinrest clamps to a tabletop edge.

The U-Frame chinrest can be mounted on a tabletop mic stand (weighted base):

U-Frame Economy Chinrest Only – Weighted Base

CR-UF-WB

\$200

Cedilla Economy Chinrest Only – Weighted Base
Cedilla Economy Chinrest Only – Tabletop Tripod

CR-CT-WB
CR-CT-TTT

\$150
\$150

This chinrest can attach to any tripod and comes with *either* a small tabletop tripod or a weighted base.

This is a chincup-only tabletop style (CR-TTT-1, \$100):

Note: The Nikon DSLR Camera body of the iris camera can be operated from a computer using the free downloadable control program (Windows) at www.digicamcontrol.com . Besides storing and showing the just-taken photo on the computer monitor, the software also supports LiveView mode for on-screen focusing. When using a chinrest-camera support, the camera-control software is especially useful.
